Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER), which provides key information on the **2016-17** educational progress for **SOUTH BENDLE ELEMENTARY**. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact **MRS. TRISHA CHERVENY** for assistance.

The AER is available for you to review electronically by visiting the following web site: www.bendleschools.org, or you may review a copy in our main office at your child's school.

For the 2016-17 school year, schools were identified using new definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has three or more underperforming student subgroups. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state. Some schools are not identified with any of these labels. In these cases, no label is given.

Our School was not given one of these labels.

Expectations for high academic achievement exist throughout each of our classrooms. Administrators and staff are also committed to addressing the barriers to learning facing many of our students. In particular, the bottom 30% of students (approximately 70 students) often face many additional challenges. In order to address these barriers to learning, social work services, tutoring, and a "multi-tiered system of support" continues to be implemented. Multiple formative and summative assessments are used to monitor and develop alternative strategies specific to those students both above and below grade level. Research based programs for reading and math are being used. The district also provides staff with professional development opportunities that target teaching, data collection, and assessment practices to better address the needs of all students.

South Bendle Elementary is one of the higher performing schools given poverty levels within Genesee County. Performance levels are also higher than several other schools with a lower rate of poverty. One of the most commonly referenced factors directly influencing a child's academic success is parent involvement. There are many ways parents can make a difference. Please feel free to contact your child's principal for more information on South Bendle Elementary.

Sincerely

John Krolewski, Superintendent
